CBT Solutions

Becoming an attorney is an achievement that will change your life forever. It is the reward for many years of study, sacrifice and dedication. Over the years, law students acquire many valuable skills that serve them well in practice. Not surprisingly, the vast amount of substantive law that must be covered in law school leaves little time for instruction on how to actually take a Bar exam.

Make no mistake; it's not a law school exam. It's not graded in the same way, it's not scored in the same way, and you should not write it in the same way. How do you approach the last hurdle to a new career? We're here to show you.

At CBT we have dedicated ourselves to the California Bar Exam. Refining substantive law outlines and teaching our clients how to write effective bar exam answers is our business. You may have taken the exam before, or this may be your first time, but at CBT our attorneys, law professors, and former bar exam graders have collectively been there hundreds of times, and we've been there with our students over a thousand. Our materials are designed to efficiently tell you what you need to know. Our tutors and grading services are here to tell you how to pass. Below are some of our offerings. If you have questions or need a small miracle, please [connect](#) with us. We'd love to chat.

If you are carrying around a huge commercial bar review book and are unsure what information you actually need to learn, you are not alone. Most bar review companies cram every possible piece of information into their outlines and do not tell you whether it is tested on the bar exam. Such information overload causes problems when you come to write your essays. With our outlines, we have isolated the issues within subjects that are tested on the bar exam and we have organized them into a systematic approach that you can employ on the actual exam.

Each outline was developed over a six month period and continually tested against bar standard questions. Following each testing session our outlines were refined until we were confident that not only are they the best in the business, but that they can tackle any problem the bar could pose. We have produced three sets of materials:

- **"Comprehensive Outlines"** are designed to be studied with until the last three weeks before the bar. They comprehensive and explain the law in the way it should be written on the bar exam.
- **"Primer Outlines"** are concise and are designed to make the most efficient use of your study time during the final weeks before the bar exam. They are structured to form an active approach that you can work through to make sure you hit all of the issues.
- **"Issue Spotters"** are one page checklists that are designed to be memorized and used to make sure no issue goes uncovered.
